

# Decision Analyst Economic Index

## Global Economic Indices

November 2019

Arlington, Texas—The following chart compares the U.S. Economic Index to Decision Analyst’s Economic Indices for other countries. In North America, both Canada and Mexico saw declines in the past 12 months. Mexico decreased 2 points, while Canada decreased 4 points. In South America, Brazil increased by 11 points, while Chile dropped 15 points. In Europe, France and Italy each increased 4 points. The European economies are increasingly at risk of recession. Some of the major countries tracked by Decision Analyst are shown below.

Global Economic Indices			November 2019	
		November 2019 Index	Past-12-Month Change (From November 2018 to November 2019)	
<b>North America</b>				
	United States	118	↑	+1
	Canada	96	↓	-2
	Mexico*	100	↓	-4
<b>South America</b>				
	Argentina*	76	↑	+1
	Brazil*	113	↑	+11
	Chile*	82	↓	-15
	Colombia*	101	↑	+1
	Peru*	106	↑	+5
<b>Europe</b>				
	France	88	↑	+4
	Germany	107	↑	+2
	Italy	103	↑	+4
	Russian Federation*	100	→	+/-0
	Spain*	96	↓	-3
<b>Asia</b>				
	India*	120	↓	-10

\* The Index scores for Argentina, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. Each reported Index number is an average of the current month with the previous 2 months.

The Decision Analyst Economic Indices are based on monthly online surveys in the respective countries; these surveys provide inputs to Decision Analyst’s econometric models that compute the Economic Indices for the different countries.

November 2019**

**Past-12-Month  
Change**  
(From Nov. 2018 to  
Nov. 2019)

**-10  
Point(s)**

## \*Three-Month Moving Average

The Index numbers for Argentina, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. Each reported Index number averages the current month with the 2 previous months. Prior to July 2013, the Index numbers reported for Germany were a 3-month moving average. Starting in July 2013, the Index numbers reported for Germany are the actual monthly numbers.

## Methodology

The Decision Analyst Economic Index is based on a monthly online survey of several thousand households balanced by gender, age, and geography. The scientific survey is conducted in the last 10 days of each month. The Economic Index is calculated from 9 different economic measurements using a sophisticated econometric model. The result is a snapshot of coming economic activity in each country surveyed, as seen through the eyes of representative consumers living in the respective countries.

Decision Analyst conducts its concurrent economic surveys each month in Argentina, Brazil, Canada, Chile, Colombia, France, Germany, India, Italy, Mexico, Peru, the Russian Federation, Spain, and the United States. Whenever the Decision Analyst Economic Index is greater than 110, it tends to signal an expanding economy. An Index value of 90 to 110 suggests a no-growth or slow-growth economy, and near or below 90 generally indicates economic contraction. These guidelines vary by country, however.

## About Decision Analyst
