

Decision Analyst Global Economic Indices

September 2016

Arlington, Texas—The following chart compares Decision Analyst's U.S. Economic Index to the Economic Indices for other countries. South America is in trouble. Chile has declined by 6 points and Colombia has declined by 5 points in the past 12 months, and Argentina and Peru have also declined. There are glimmers of hope in Europe. The Economic Indices in Germany, Italy, Spain, and the United Kingdom are trending up, and the initial impact of Brexit on the U.K. appears to be minimal, so far.

		Decision Analyst Global Economic Indices September 2016	
		September 2016 Index	Past-12-Month Change (From Sept. 2015 to Sept. 2016)
North America			
	United States	111	↑ +5
	Canada	95	↑ +7
	Mexico*	94	↑ +5
South America			
	Argentina*	84	↓ -3
	Brazil*	91	↑ +7
	Chile*	88	↓ -6
	Colombia*	100	↓ -5
	Peru*	107	↑ +3
Europe			
	France	89	→ +/-0
	Germany	107	↑ +3
	Italy	98	↑ +3
	Russian Federation*	96	↑ +4
	Spain*	102	↑ +6
	United Kingdom	109	↑ +3
Australia/Asia			
	Australia*	95	↑ +2
	India*	124	↑ +1

* The Index numbers for Argentina, Australia, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. The reported Index number averages the current month with the previous 2 months.

The Decision Analyst Economic Indices are based on monthly online surveys in the respective countries; these surveys provide inputs to Decision Analyst's econometric models that compute the Economic Indices for each country.

**Past-12-Month
Change**
(From Sept. 2015 to
Sept. 2016)

*Three-Month Moving Average

The Index numbers for Argentina, Australia, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. The reported Index number averages the current month with the 2 previous months. Prior to July 2013, the Index numbers reported for Germany were a 3-month moving average. Starting in July 2013, the Index numbers reported for Germany are the actual monthly numbers.

Methodology

The Decision Analyst Economic Index is based on a monthly online survey of several thousand households balanced by gender, age, and geography. The scientific survey is conducted in the last 10 days of each month. The Economic Index is calculated from 9 different economic measurements using a sophisticated econometric model. The result is a snapshot of coming economic activity in each country surveyed, as seen through the eyes of representative consumers living in the respective countries.

Decision Analyst conducts its concurrent economic surveys each month in Argentina, Australia, Brazil, Canada, Chile, Colombia, France, Germany, India, Italy, Mexico, Peru, the Russian Federation, Spain, United Kingdom, and the United States. Whenever the Decision Analyst Economic Index is greater than 110, it tends to signal an expanding economy. An Index value of 90 to 110 suggests a no-growth or slow-growth economy, and near or below 90 generally indicates economic contraction. These guidelines vary by country, however.

About Decision Analyst
