

Decision Analyst Global Economic Indices

September 2018

Arlington, Texas—The following chart compares the U.S. Economic Index to Decision Analyst's Economic Indices for other countries. The Economic Indices for all European and South American countries are less than the U.S. Economic Index, and many countries are seeing declines in their Indices. Argentina has declined 16 points in the past 12 months, while Chile has declined 4 points. Meanwhile, Colombia has increased by 5 points in the past 12 months. In Europe, France has declined 8 points in the past 12 months, while Germany has increased by 4 points. The major countries tracked by Decision Analyst are shown below.

		Global Economic Indices September 2018		Past-12-Month Change (From Sept. 2017 to Sept. 2018)	
North America		Sept. 2018 Index			
	United States	116	↑	+1	
	Canada	98	↑	+3	
	Mexico*	99	↓	-2	
South America					
	Argentina*	74	↓	-16	
	Brazil*	103	↑	+4	
	Chile*	97	↓	-4	
	Colombia*	101	↑	+5	
	Peru*	102	↓	-3	
Europe					
	France	85	↓	-8	
	Germany	108	↑	+4	
	Italy	98	↓	-1	
	Russian Federation*	100	↑	+1	
	Spain*	102	↓	-1	
Australia/Asia					
	Australia*	94	→	+/-0	
	India*	126	↑	+1	

* The Index numbers for Argentina, Australia, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. The reported Index number is an average of the current month with the previous 2 months.

The Decision Analyst Economic Indices are based on monthly online surveys in the respective countries; these surveys provide inputs to Decision Analyst’s econometric models that compute the Economic Indices for the different countries.

**Past-12-Month
Change
(From Sept. 2017 to
Sept. 2018)**

*Three-Month Moving Average

The Index numbers for Argentina, Australia, Brazil, Chile, Colombia, India, Mexico, Peru, the Russian Federation, and Spain are 3-month moving averages to smooth out month-to-month fluctuations. The reported Index number averages the current month with the 2 previous months. Prior to July 2013, the Index numbers reported for Germany were a 3-month moving average. Starting in July 2013, the Index numbers reported for Germany are the actual monthly numbers.

Methodology

The Decision Analyst Economic Index is based on a monthly online survey of several thousand households balanced by gender, age, and geography. The scientific survey is conducted in the last 10 days of each month. The Economic Index is calculated from 9 different economic measurements using a sophisticated econometric model. The result is a snapshot of coming economic activity in each country surveyed, as seen through the eyes of representative consumers living in the respective countries.

Decision Analyst conducts its concurrent economic surveys each month in Argentina, Australia, Brazil, Canada, Chile, Colombia, France, Germany, India, Italy, Mexico, Peru, the Russian Federation, Spain, and the United States. Whenever the Decision Analyst Economic Index is greater than 110, it tends to signal an expanding economy. An Index value of 90 to 110 suggests a no-growth or slow-growth economy, and near or below 90 generally indicates economic contraction. These guidelines vary by country, however.

About Decision Analyst
